

Bio-Protocol License to Publish

The following License must be signed and returned to Bio-protocol before a manuscript can be accepted for publication. If the copyright in the contribution is owned by an entity other than the author (such as the author's employer), the copyright owner or its authorized representative must co-sign this form.

This License to Publish ("**License**") is entered into as of _____, 20__ (the "**Effective Date**") by and between Bio-protocol LLC ("**Bio-protocol**") and the person(s) identified as an author below (individually and collectively, "**Author**"). This License applies to the Author's protocol or article currently titled _____ and all associated supplemental materials, data, images, audio and/or video (collectively, the "**Article**"), which the Author is submitting for publication in one of Bio-protocol's websites.

1. **License Grant.** Subject to the terms of this License, Author hereby grants to Bio-protocol the sole, exclusive, irrevocable, worldwide and royalty-free right to publish, reproduce, distribute, transmit, publicly display, store, translate, create derivative works from and otherwise use or exploit the Article in any form, manner, format or medium, whether known or hereafter developed, in any language, for the entire duration of any such right and any renewal or extension thereof and to permit and sublicense others through multiple tiers to do any or all of the foregoing.
2. **Reservation of Rights.**
 - a. **Ownership.** Author reserves ownership of the Article and all of Author's other proprietary rights with respect to the Article, including the copyright and any patent rights Author may have in any inventions described in the Article, subject to the rights granted to Bio-protocol in Section 1. Bio-protocol shall be the holder of title for the purpose of copyright registration.
 - b. **Other Rights.** Author retains the following non-exclusive rights to use the Article without further permission after the publication of the Article by Bio-protocol, provided that Author will reference (and, where applicable, require any third party to reference) the appropriate citation of the publication by Bio-protocol of the Article when exercising any of the rights retained by the Author in this subsection 2.b.:
 - i. Reprint the Article in print collections of Author's own writings;
 - ii. Reprint the Article in print format for inclusion in a thesis or dissertation that the Author writes for a degree granted by an educational institution;
 - iii. Present the Article orally;
 - iv. Reproduce the Article for use in courses that the Author is teaching (if the Author is employed by an academic institution, that institution may also reproduce the Article for course teaching at that institution);
 - v. Distribute photocopies of the Article to colleagues for non-commercial purposes only;
 - vi. Reuse figures or tables in the Article for future publications written by the Author; and

Author agrees to obtain prior consent from Bio-protocol for any uses not expressly authorized in this Section 2.

3. **Enforcement.** Author will promptly notify Bio-protocol if Author becomes aware of any known or suspected infringement of the copyright in the Article. Bio-protocol will be entitled to enforce the copyright against any third-party infringer. If Bio-protocol asserts or files any claim, suit, or action (a "**Claim**") against any such third-party infringer, Author will cooperate with Bio-protocol, at Bio-protocol's request, in the prosecution and settlement of such Claim, including joining as a party to such suit or action where reasonably required.
4. **Warranties.** Author represents and warrants that:
 - a. Author has all rights and licenses necessary to grant to Bio-protocol the rights in the Article specified in Section 1 above;

- b. The Article has not been published anywhere else and Bio-protocol's use of the Article in compliance with the license granted in Section 1 will not infringe, misappropriate or violate any third party's copyright, proprietary or personal rights, or any applicable law or regulation;
 - c. the Article is original, and that Author has made all reasonable efforts to ensure the accuracy of any factual information contained in the Article; and
 - d. Author's agreement to the terms and conditions of this License will not violate or conflict with any obligations owed by Author to a third party.
5. **Indemnification.** Author will indemnify and hold harmless Bio-protocol and its affiliates, employees, directors, officers, agents, customers and sublicensees against any and all claims, liabilities, damages, costs, and expenses directly or indirectly arising from or relating to any breach of or inaccuracy in any of representations or warranties made by Author under this License.
6. **General.** This License is governed by and construed in accordance with the laws of the State of California, excluding that body of law known as conflict of laws. Any legal action or proceeding arising under this License will be brought exclusively in the federal or state courts located in the Northern District of California and the parties hereby irrevocably consent to the personal jurisdiction and venue therein. Bio-protocol may freely assign or transfer this License, in whole or in part, by operation of law or otherwise. This License will bind and inure to the benefit of each party's successors and permitted assigns. If, for any reason, a court of competent jurisdiction finds any provision of this License invalid or unenforceable, that provision of the License will be enforced to the maximum extent permissible and the other provisions of this License will remain in full force and effect. The failure by either party to enforce any provision of this License will not constitute a waiver of future enforcement of that or any other provision. This License constitutes the complete and exclusive understanding and agreement between the parties regarding its subject matter and supersedes all prior or contemporaneous agreements or understandings, written or oral, relating to its subject matter. Any waiver, modification or amendment of any provision of this License will be effective only if in writing and signed by duly authorized representatives of both parties. This License may be executed in counterparts, each of which will be deemed an original, but all of which together will constitute one and the same instrument. In the event that Bio-protocol does not publish the Article in any medium, within two (2) years of the Effective Date, this License shall be null and void. Bio-protocol recognizes that an Article prepared under certain governmental grants or contracts may be subject to the government's prior non-exclusive rights to use the Article for non-commercial, governmental purposes to the extent provided in the contract or grant or other regulations.

If the Article was prepared jointly by multiple authors, please identify all co-authors below. If any co-authors or other copyright holders of the Article are not personally signing this License (each, a "**Non-Signing Author**"), the person designated below as the Corresponding Author represents and warrants that he or she (1) has informed all the Non-Signing Authors of the terms of this License, (2) has the authority to act as the agent for the Non-Signing Authors in relation to this License, and (3) is signing this License on behalf of all the Non-Signing Authors and also on his or her own behalf. The signatory must inform Bio-protocol of any changes in authorship.
