

Correction Notice: Measurements of Proline and Malondialdehyde Contents and Antioxidant Enzyme Activities in Leaves of Drought Stressed Cotton

Tianzi Chen and Baolong Zhang*

Provincial Key Laboratory of Agrobiolgy, Jiangsu Academy of Agricultural Sciences, Nanjing, China

*For correspondence: zhbl2248@hotmail.com

In the original version of the protocol, (<https://bio-protocol.org/e1913>), the formulas for MDA, SOD, POD, CAT, and GST calculation were incorrect. In all the mentioned formulas, Cp should be replaced with $(C_p \times V)$.
