*For correspondence: mohainle@fredhutch.org

After official publication in Bio-protocol (<https://bio-protocol.org/e3422>), we realized that there is a typographical error in the Procedure, section C, point 1: where it reads “add 3.2 mL of OptiPrep to 4.8 mL of HBSS,” it should be corrected to “add 4.8 mL of OptiPrep to 3.2 mL of HBSS.”

Additionally, the correct email address for correspondence is rucha.tillu@gmail.com.
